

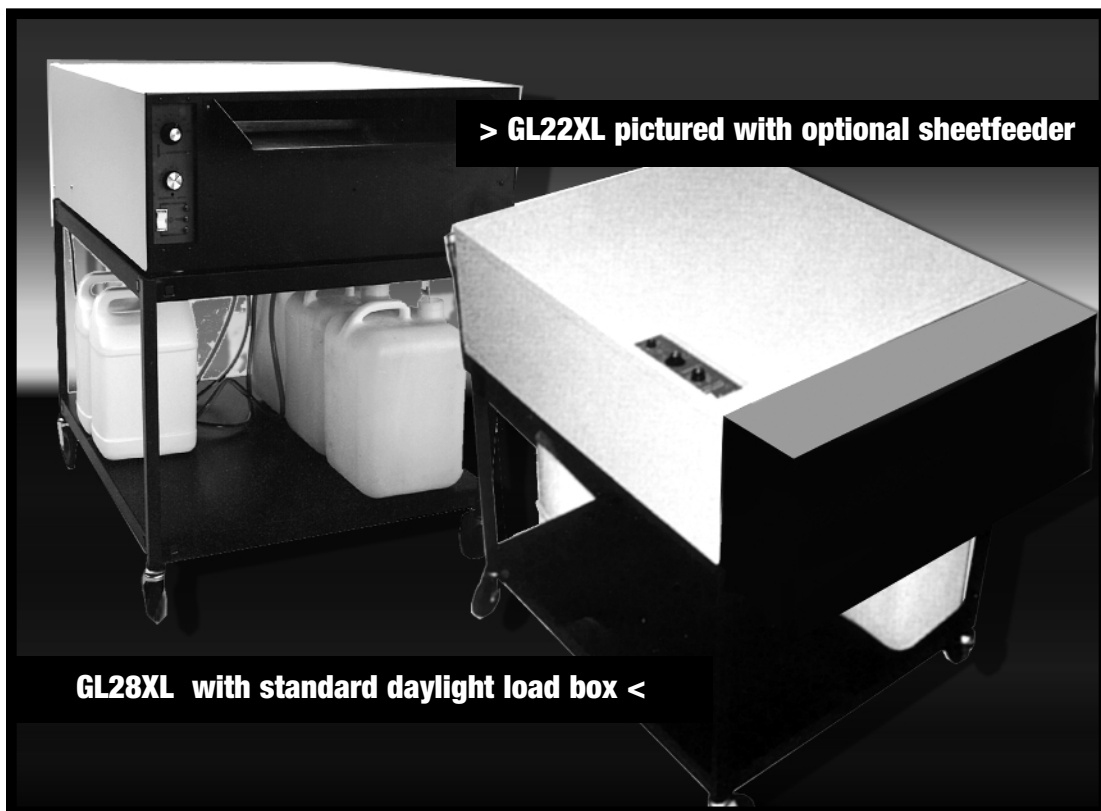

GRAPHLINE PROCESSORS

> GL22XL pictured with optional sheetfeeder

GL28XL with standard daylight load box <

FEATURES

- Adjustable Speed Control
- Chemical Recirculation
- Efficient Design
- Energy Efficient
- No Plumbing
- Simple Maintenance
- Standby Mode
- Standard Daylight Loader

GraphLine Film and SilverPlate processors are ideal for processing a variety of materials. Chemical recirculation ensures optimal processing density with uniform and consistent results. The efficient design of the GL14XL, GL22XL and the GL28XL allows you to uncrate, assemble and immediately begin processing. The GraphLine GL14XL, GL22XL and the GL28XL are energy efficient with standard 115 vac-15 amp. operation.

The GraphLine GL14XL, GL22XL and the GL28XL require no plumbing with closed loop cleaning for simple maintenance. The standby mode on the processor helps maintain chemistry temperatures and extend the chemistry life. Equipped with standard daylight loader, the GL14XL, GL22XL and the GL28XL are perfect for feeding photo and imagesetting materials quickly and easily.
