GRAPHLINE WASH UP BOTTLES

Highly durable 1 Quart Wash up Bottles, color coded sold individually or as a set.

Part # 6012102001 Single
Part # 6012103001 Set of 4

GRAPHLINE TURBO DRY MULTI LEVEL INK DRYER

Compatible with all oxidation / conventional drying inks. Typically a 7% addition (1 oz per pound of ink) will halve the ink drying time – even with the notoriously difficult Reflex Blue.

Laboratory and press tests with transparent yellow at relatively high dosages Turbo Dry had no discernable effect on hue or color level of the ink.

Extremely useful when printing on non-absorbent stocks like polyester, vinyl and synthetic papers.

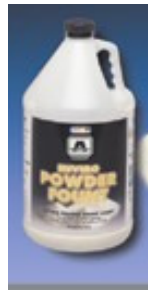

- Use with all substrates – overcomes problems experienced when printing on acid stock, ink dries normally allowing higher throughput.
- Turbo Dry may be added directly to the ink duct on press. It is vital that the Turbo Dry be mixed thoroughly with the ink to ensure even distribution.
- For especially difficult situations, or when a job has to be trimmed, folded, scored or finished in a hurry, Turbo Dry can relieve the pressure.
- Unlike more traditional dryers, there is no level at which Turbo Dry will inhibit ink drying

Part # 6012106001 case / 12 pints

GRAPHLINE POWDER UNIVERSAL FOUNTAIN SOLUTION

Envirofount Powder Series lowers cost. Since it only requires 10% of the space and weighs about 87% less than liquid founts, it reduces storage costs while its environmentally friendly composition eliminates the need for storage of empty containers (Gallons, pails, drums and totes).

Use with Metal, Polyester (laser & silver imaged) Plates
Gallons come pre-packed with powder fount, just add water
Powder Founts are environmentally friendly
Commercial Sheet Fed,
Much Lower Cost

Part # 6018107035A case/4 gals

GRAPHLINE INK KNIVES

Strong one piece solvent-resistant knives are made from durable polypropylene. Light weight with rounded edges so they present no danger of damaging rubber, plastic, or teflon parts on the press.

PART # 6012104001 set/4

GRAPHLINE HAND SCRUB

Hand Scrub is based on an efficient yet simple technology:

using small spherical scrubbing beads to scrub simultaneously while detergents lift and remove inks, grease and dirt. Scrubs away deep ground in inks, grease and dirt without leaving hands feeling slippery

Removes deep ground in inks, grease and dirt
ENVIRONMENTALLY FRIENDLY
"No Listed Hazardous Ingredients"

Leaves hands feeling clean without greasy residues.

Fresh scent/fragrance

Part # 6012105001 case/4 3.1 lb tubs

GRAPHLINE SCRUBS IN A BUCKET

Premoistened hand cleaner towels that go where you go. Waterless hand cleaner towels that work.

- Portable
- Convenient
- Effective

Quickly removes:

Dirt	Grease
Oils	Adhesive
Tar	Paint
Ink	Wax

Part # 42272 case / 6 tubs

GRAPHLINE COATED OFFSET SPRAY POWDER

Reduces airborne powder residue
Less likely to block or clog pipes and nozzles
Provides moisture resistant packaging
Controllable flow rate
Less blanket piling
Reduced plate wear
Uniform grain shape
Grade 300 Medium 25 micron

Part # 6012101001 case / 10 bags

GRAPHLINE RELIEF CALCIUM REMOVER

In recent years, calcium carbonate has become a commonly used filler in the production of alkaline papers. Unfortunately, calcium carbonate lies at the heart of many print-related problems. If not removed regularly, it forms a hard coating around the roller train causing a loss of ink/water balance. The buildup of calcium carbonate on the metering roller and blankets also negatively affects their performance. Relief will eliminate these problems when used as part of an ongoing preventive maintenance program.

Part # 6018107036A case / 12 quarts

GRAPHLINE SNAP BACK

Snap Back was developed to repair severely smashed blankets without marring the printing surface. When a blanket is smashed, the fabric side is decompressed. If the rubber printing surface is not damaged it can be repaired for a few cents. Saves the cost of replacing a blanket.

- Revive older blankets
- Safe to use.
- Takes only a few minutes.

GRAPHLINE INK REPELLENT

Ink Repellent is designed to reduce the unwanted accumulation of ink on the impression cylinder. It will help prevent piling and picking problems associated with ink build up on the impression cylinder.

- Keeps back cylinders cleaner especially on small format presses
- Reduces ink piling on perfecting and impression cylinders
- Reduces ink picking during back-up.
- Effective longer than silicones or waxes
- Easily applied.
- Also for use on paper cutter beds and jogging tables.

INCTEC IRIS VAN INKS

For All Sheetfed Presses

- High Quality
- Excellent Water Balance
- Superior Dot Reproduction
- Runs Well with Alcohol
- Excellent Performance
- Superior Rub Resistant
- Works on Coated & Uncoated Stocks
- Works with Continuous Dampening Systems

Available in Quick Dry & Stay Open

It always comes down to ink on paper.....make sure your ink is up to the job!!!

FIBERWEB

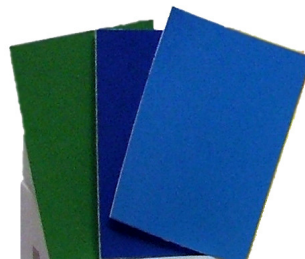

Fiberweb makes a multitude of top quality, high performance products for use in the graphic arts industry. They are products our customers have come to know and trust, from wipers to dampener covers to absorbent socks.

Elixir™ KleanWipes® Nubtex® Quack® Red 1® and Red Runner™ Resolution® Washtex® Webril®

Bring the best to your pressroom.

GRAPHLINE BLANKETS

GraphLine blankets are compressible 3, 4 and 5 ply, and are manufactured to the highest quality specifications, with strong textile layers designed for durability and high chemical resistance. GraphLine blankets outlast the competition with a longer press life than the competition. The GraphLine blanket resists sinking and gauge loss when mounted and during printing, providing unparalleled smash resistance. Available for any press, from duplicator dimensions up to 50 inches, these blankets are configured as straight cut, punched or barred. GraphLine also sells a complete line of underblankets, "sticky back" blankets and blankets specifically designed for the print packaging industry.

Performance Guarantee!!

TRONEX VINYL AND LATEX DISPOSABLE GLOVES

A general purpose disposable glove, ambidextrous, light weight with high tensile strength ISO-9002 Certified. These quality lightly powdered gloves offer excellent dexterity and sensitivity and are light in color with a beaded cuff. Available in Small, Medium, Large, and XLarge

Part # 0900184W (large) case / 10 boxes

GRAPHLINE SYSTEM CLEANER

This environmentally safe cleaner is designed for all processors, trays & tank systems as well as processor parts, racks, rollers, etc. **GRAPHLINE'S SYSTEM AND TRAY CLEANER** is a concentrated cleaning solution especially developed to loosen and dissolve chemical build-up and hard water spots. With regular use, it helps prevent pitting, cracking and wrinkling of rollers, while keeping rollers clean. This keeps rollers like new. GraphLine's **SYSTEM AND TRAY CLEANER** penetrates and lifts residue and stains from the surface to which it's applied, and will keep processor free from any chemical buildup.

Part # 6017783003 case/ 12 quarts

GRAPHLINE DYNAMIGHT CTP

CLEANER, PRESERVER, AND SCRATCH REMOVER

Dynamight has been chemical resistance tested with most know major ctp plates, showing no image degradation. (test available upon request). Dynamight cleans plates, removes sensitive areas and is used for plate storage. It leaves a water receptive film on the non-image area ensuring fast start-up, each time it is used.

- Mild on plates
- Short-term storage.
- Desensitizes the plate
- Use with most known CTP Plates
- Conditions the plate leaving the non-image area water receptive

GRAPHLINE CPF

CLEANER, PRESERVER, AND SCRATCH REMOVER

Cleans plates, removes sensitive areas and is used for plate storage. It leaves a water receptive film on the non-image area ensuring fast start-up, each time it is used.

- Gentle on plates
- Good desensitizing qualities
- Compatible with most metal plates
- Keeps non-image area water receptive
- Use as overnight or short term storage
- Use to clean and remove ink from plates, and/or store plates

Part # 3160063202 case / 12 quarts
